

# THE ENDURO-CROSSER

In the search for the perfect competition enduro bike, there has always been a choice of starting places. From one end, you take a production enduro bike and trick it out with MX goodies. From the other, you buy a motocrosser and try to make it dependable where it isn't. Where these two routes meet is where we are.

The Endurocrosser is a totally new bike from Can-Am. It fuses the handling and suspension quality of a state-of-the-art motocrosser with the tractability and ruggedness of a great enduro bike. All built on the bedrock reliability Can-Am is famous for.

Qualifier IV 125, 175, 250 and 400. The Endurocrossers. See them at your Can-Am dealer's, now.

**Can-Am**  
WE WILL WIN YOU.
